## Vereniging "Vredesbeweging Pax Christi Nederland"

### Notes to the 2024 Financial Statements

#### General

The notes are included in the Consolidated Financial Statements. The consolidated annual report contains the following entities:

- Vereniging Vredesbeweging Pax Christi Nederland (Parx Christi);
- Stichting Katholieke Vredesbeweging (Stikav)

#### Vereniging "Vredesbeweging Pax Christi Nederland"

The Vereniging Pax Christi established in 1948 continues to exist as separate peace organization with its own identity and distinct characteristics after it combined its peace work with IKV in 2007. The legal status form is that of an association, registered at Chambre of Commerce in Utrecht. The office of the association is located at St. Jacobsstraat 12, 3511 BS Utrecht.

#### Financial reporting Period

The Financial statements cover the year 2024, which ended at the balance sheet date of 31 December 2024.

#### Functional and presentation currency

The financial statements are presented in euros ('EUR'), which is the entity's functional currency.

#### Going concern

These financial statements have been prepared on the basis of the going concern assumption.

#### Accounting policies for the measurement of assets, liabilities and the determination of result

##### General

Assets and liabilities are measured at historical cost, unless stated otherwise in the further principles.

An asset is recognised in the balance sheet when it is probable that the expected future economic benefits that are attributable to the asset will flow to the foundation and the asset has a cost price or value of which the amount can be measured reliably. Assets that are not recognised in the balance sheet are considered as off-balance sheets assets.

A liability is recognised in the balance sheet when it is expected that the settlement of an existing obligation will result in an outflow of resources embodying economic benefits and the amount necessary to settle this obligation can be measured reliable. Provisions are included in the liabilities of the foundation. Liabilities that are not recognised in the balance sheet are considered as off-balance sheet liabilities.

An asset or liability that is recognised in the balance sheet, remains on the balance sheet if a transaction (with respect to the asset or liability) does not lead to a major change in the economic reality with respect to the asset or liability. An asset or liability is no longer recognised in the balance

## Vereniging "Vredesbeweging Pax Christi Nederland"

sheet when a transaction results in all or substantially all rights to economic benefits and all or substantially all of the risks related to the asset or liability being transferred to a third party.

An asset or liability is no longer recognised in the balance sheet, and thus derecognised, when a transaction results in all or substantially all rights to economic benefits and all or substantially all of the risks related to the asset or liability are transferred to a third party. In such cases, the results of the transaction are directly recognised in the statement of income and expenditure.

Income is recognised in the statement of income and expenditure when an increase in future economic potential related to an increase in an asset or a decrease of a liability arises of which the size can be measured reliably. Expenses are recognised when a decrease in the economic potential related to a decrease in an asset or an increase of a liability arises of which the size can be measured with sufficient reliability.

Revenues and expenses are allocated to the respective period to which they relate.

### **Financial Instruments**

Financial instruments include investments in shares and bonds, trade and other receivables, cash items, loans and other financing commitments, derivative financial instruments, trade payables and other amounts payable. The financial statements contain the following financial instruments: Cash items, receivables and payables. The entity has no (embedded) derivative financial instruments.

Financial assets and liabilities are recognized in the balance sheet at the moment that the contractual risks or rewards with respect to the financial instrument originate. Financial instruments are derecognised if a transaction results in a considerable part of the contractual risk or rewards with respect to that financial instrument being transferred to a third party.

Financial instruments are initially recognised at fair value. The fair value is based on the estimated present value of the future net cash flows. After initial recognition the financial instruments are measured at amortized costs on the basis of the effective interest method, less impairment losses. The effective interest and impairment losses, if any, are directly recognised in the statement of income and expenditure.

Financial instruments include investments in shares and bonds, trade and other receivables, cash items, loans and other financing commitments, derivative financial instruments, trade payables and other amounts payable. The financial statements contain the following financial instruments: Cash items, receivables and payables. The entity has no (embedded) derivative financial instruments.

The fair value of a financial instrument is the amount for which an asset can be sold or a liability settled, involving parties who are well informed regarding the matter, willing to enter into a transaction and are independent from each other. The fair value of non-listed financial instruments is determined by discounting the expected cash flows to their present value, applying a discount rate that is equal to similar loans including a risk premium for credit and liquidity risks.

## **Vereniging "Vredesbeweging Pax Christi Nederland"**

### **Tangible Fixed Assets**

Tangible fixed assets are measured at acquisition cost, less accumulated depreciation and impairment losses. Depreciation is recognized in the statement of income and expenditure based on their estimated economic life time.

### **Receivables and prepayments**

The accounting policies applied for the valuation of receivables are described under the heading 'Financial instruments'

### **Cash and cash equivalents**

Cash and cash equivalents are stated at nominal value. If cash and cash equivalents are not readily available, this is taken into account in the measurement.

### **Continuity reserve**

The continuity reserve is in place to meet its obligations in the long term.

### **Current Liabilities**

The valuation of liabilities and other financial commitments are described under the paragraph financial instruments.

**Date of preparation of financial statements: July 10th, 2025**

<i>Proposal Regarding the Appropriation of Result</i>		
- Result	<u>                    </u> <u>                    </u> -	<u>                    </u> <u>                    </u>

Underlying these financial statements is the mutual agreement that any yearly surplus is contributed to PAX. Therefore Pax Christi (per definition) has a zero result. The temporary part of the continuity reserve 2023 is included in the contribution to PAX in 2024.

The financial statements 2024 of the association Pax Christi are drafted and signed by the board of directors and approved by the 'Ledenraad' 12 September 2025.

In accordance with the registration of the chamber of commerce the association is represented by:

T. Wagenaar

S. Brouwers

F. de Wolff
